Homework in the 21st Century

Let's face it, very few people really like homework, especially the traditional sort, which can become highly repetitive and heavy on memorisation. However, we are now well into the 21st century and it is time that homework caught up. In this session, we will look at different approaches to homework, which make use of modern technology and modern classroom methodology. These techniques will interest and engage the learner, leaving nothing for the dog to eat.

Communication in the modern world

We all know that the emphasis in modern language teaching is on communication, but what does it mean to communicate well? In this session we will break communication down into its constituent parts and discuss how these can be improved to be effective in a 21st century context.

Steve Lever

Škola za život u teoriji i praksi

Predavačice će nas na primjerima iz prakse provesti kroz novosti koje nam donosi novi kurikulum s posebnim naglaskom na načine i oblike vrednovanja. Kroz svoje predavanje pokušat će ukloniti nesigurnost i strahove vezane uz kurikularnu reformu i time ohrabriti i osnažiti učitelje u njihovom radu u nastavi. Jednostavnom demonstracijom praktične primjene digitalnih materijala za učenje engleskog jezika u suvremenoj učionici, svatko će dobiti ideje kako povećati motivaciju i aktivirati učenike u svakodnevnom nastavnom procesu.
